GAME DESCRIPTION

Kings Castle is a single player coin drop game with a progressive jackpot feature. The player inserts a coin or token into the acceptor. The coin travels through the chute to the catapult. The player pulls the lever to release the coin into the play-field. The coin will fall through the roof of the castle and either pass through a caldron or one (1) of five (5) valued slots. If the coin passes through the caldron, the player is awarded a progressive jackpot prize. If the coin misses the caldron, the player will be awarded the value of the slot through which the coin passes. If the coin does not pass through the castle roof, a mercy ticket will be awarded. All awards are dispensed as tickets to the player for prize redemption.
